powergres

La collezione ICON apre una nuova frontiera del design del paradosso. Le lastre nel formato 60x120 e 60x60 cm di disegno disomogeneo si sposano grazie alla "familiarità" dei soggetti e delle cromie.

Una contrapposizione grafica che viene accentuata dalla superficie naturale matt e anche dalla versione lappata (disponibile su richiesta) di un porcellanato di qualità rettificato e squadrato.

The ICON collection opens a new frontier in the paradox design. Slabs sized 60x120 and 60x60 cm with uneven pattern are matched thanks to the subject and shade "familiarity".

The graphical contrast is further emphasized by the natural matt finish. A glossy lappata version is available on request. The basis of this premium fine stoneware is porcelain.

BALKAN

A tile design collection aimed at surpassing expectations.

made in Italy *italian design*
by **powergres** **powergres**

BALKAN

30x60 - 60x60 cm

 powergres

Tra una ripresa della parte classica del legno e l'effervescenza dello stile di macro immagine la collezione Balkan è pura seduzione con una modernità che emoziona. Tradizione, evoluzione, innovazione e un indizio di rivoluzione: Balkan si muove su queste tracce estetiche che fanno da vestito ad una funzionalità sempre più high tech. Balkan è prodotta con la tecnologia del digitale che realizza 16 facce grafiche diverse di 60x60 cm tra una lastra e l'altra.

The Balkan collection is traditional but with a new, modern feel, combining the classical wooden elements and the stylish effervescence of macro image. Tradition, evolution, innovation and a hint of revolution: Balkan moves along these esthetic traces that address an increasingly high tech functionality.

Balkan is manufactured through digital technology, making 16 different patterns of 60x60 cm between the slabs.

A fashionable haptic surface
that meets the urban's influence decoration.

OKIA

45,5x45,5 - 60,4x60,4 - 30,8x61,5 cm

OXYD

powergres

Trendy come aggettivo di moda che raggruppa l'essenza delle quattro collezioni. Sta per "chic, esclusivo, creativo, glamorous" ma più di tutto significa contemporaneo. Strutture materiche, variabilità cromatica, posa a giunto minimo che dà continuità alle superfici, sono rappresentate dalle collezioni Cement, Oxyd, Okia e Posh. Un'avanguardia di stile, un raffinato gusto dell'insolito per la nuova tendenza dell'abitare. Quattro collezioni create per realizzare atmosfere di interni in continua metamorfosi.

Trendy, the most sophisticated combination of the four collection. It means "chic, exclusive, creative, glamorous", but above all it means contemporary. The Cement, Oxyd, Okia and Posh collections structures are all represented by the Cement, colour variability, min. joint application resulting in surface continuity. Avangard style, a refined taste for the unusual for the modern living trend. The four collections create by Powergres to support any time interior atmospheres that are continuously developing.

For a life of sensations rather than thoughts...

OXYD

30x60 - 60x60 - 30x30 - 10x60 cm

DIN 51130 : R11 C Naturale Matt / *Natural Matt surface*

Beleza. La perfetta riproduzione della pietra naturale, uno dei materiali principe dell'architettura tradizionale, rappresenta per chi la sceglie non solo un elemento costruttivo ma anche e soprattutto un insieme di significati simbolici, un rimando ai valori del passato un legame con la natura e con le radici più antiche dell'uomo. Pietre eleganti perfettamente riprodotte in lastre con la tecnologia digitale avanzata del Gres Fine Porcellanato in un mix di colori e strutture che fondono perfettamente bellezza artistica e tecnologia.

Beleza. A perfect reproduction of natural stone, one of the traditional Italian architecture's prime materials, is not merely a building material: it is also, indeed and foremost, asset of symbolic associations harkling back to the values of the past, a bond with nature and with man's most ancient roots. Elegant stones slabs perfectly reproduced with Fine Porcelain Stoneware digital advanced technology in a colours and structure mix which blends artistic and technology in perfect harmony.
